John,

Meeting with DeputiesObvious: If they don't know already, they will want to clarify

- your role and responsibilities
- relationships among DCI/DDCI, you, them

Issues:

- they will all probably be concerned with unfunded requirements and shortages of critical skills, including clericals
 - concern exists that DDs have to exercise more discipline in the budget process -- Harry may raise this
- I am sure you know what issues to expect them to raise. You might want to let them know
 - your plans for following up on the 85 study; how much importance you place on the whole planning process
 - progress you expect to see in the new DDI, and on Bob's agenda in particular

STAT

- your views on dealing with GSA, space planning in general, the pending battle with State over the DTS; willingness to fight for commo upgrade program
- Concerns about SAFE, CAMS, large scale ADP systems in general;
- Are you going to open up the personnel management area or let it rest for awhile; the troops are waiting for the other shoe to drop re: this regime's personnel management philosophy -

- Do you subscribe to the Turner/Carlucci one - Agency concept or the Colby give the DD's the resources they need to do their jobs and they can alert me to problems philosophy; in either case, how will EXCOM be used as a forum.

Anything you can pass on will help me do a better job next time.
